### Profile

Full stack developer who has always been interested in coding and technology. As of 2021 started a self-taught journey which lead me to take different courses in the area, with the aim to change career. In this period of time, I have learned a great amount and have been able to work on different projects.

I am committed to my tasks and to constant learning, what in result lead me to win different awards and competitions and helped to climb my position to head of department in short period of time.

Now I am looking for a new challenge where I will be able to keep developing my skills while bringing results to your company.

### Courses

**CodeAcademy** (07/22 – to Present)

Computer Science

Online course covering Data Structures, Algorithms, Databases, Computer Architecture and Maths

**Just IT Training Ltd, London** (07/22 – 09/22)

Hotel Management

Hotel management gave me a good ground in managment and helped me to develop soft-skills such as, teamwork, communication, humbleness and comercial-awareness

### Key Skills

Python, Java, JavaScript, HTML5, CSS3, React, Django, Django-Rest-Framework, MySql, MongoDB, RabbitMQ, Celery, Linux, Docker, SOLID, DRY, DDD

## Soft Skills

Team player, Communication, Problem Solving, Humbleness, Leadership

## Projects

- Online Wine Shop, this project has been wrote in Python/Django, with Database in Postgres, asynchronous tasks using Celery and RabbitMQ and payment process with Stripe the deployment has been done on Heroku, using Docker and GitHub Actions on CI/CD approach.
- E-commerce API, with a DDD (Design Driven Development) approach and following SOLID principles. it has been wrote in Python/Django-Rest-Framework, which has been unitted tested and published on Heroku through a CI/CD approach using Github for version control and automated tests, and Docker to create the project container to be deployed.
- Portfolio website created using React, JavaScript, HTML, CSS, on this project I have worked on different skills related to the front-end.
- Linked List wrote in python which allows CRUD operations.

## Employment History

**Company:** Imperial Treasure - London      **Role:** Head Sommelier

**Period:** October/2018 – September/2021

Head of department, I was responsible for constant sales improvement. It involved constant sales analysis, product search and negotiation with suppliers as well as hiring and training staff.

As I have an analytic approach to my work, I have studied BI tools to improve my sales analysis and help me improving sales.

**Company:** Divinum Wine Bar - Barcelona      **Role:** Owner

**Period:** September / 2013 – January/2015

Moved out from Brazil to open this wine bar in Spain, to get it done we have done market research to understand the Spanish taste and market, we have then developed a Tapas Bar concept with an international approach. As result Divinum got between the 5 best tapas bar in the whole Catalonia.

To help controlling our stock and the daily operations I have developed a simple but efficient stock system using excel and VBA.

## Languages
